aim.

Learn how we can build
Serverless solutions in Azure

workshop agenda

09:00

short
introduction

09:15

time for
you

14:00

demo of
solution

15:15

the
end

| way of working

we should have fun

This time responsibility is on your side. You are fully responsible for the whole solution. In the end, you will have 5 minutes for presentation.

I would encourage you to work together and exchange your knowledge.

todo.

We will provide Azure Function backend for registration form that will:

- validate data
- store customer data
- send thank you message
- send SMS to us each time new customer will register

Get The Best Ticket Today!

You can add unlimited fields directly from HTML

Send Information

| this is time
for you

Waiting for solution

Please create API that will support the described problem. You should focus on using serverless components that are available on Azure cloud. Your solution should be production-ready.

Please include costs of Azure when you are developing your application.

demo

| can you indicate
the best approach?

「summary.」
